PROFESSIONAL EXPERIENCE

Magellan Healthcare — Instructional Designer
April 2022 – December 2025

- Designed and developed performance-driven learning solutions supporting behavioral health, clinical, and public-sector Medicaid and Medicare programs, aligning training initiatives with state contract requirements, workforce readiness goals, and regulatory compliance standards.
- Built curriculum supporting multi-state Medicaid and Medicare behavioral health programs, including Florida, Louisiana, Montana, Pennsylvania, Virginia, Wyoming, Idaho, Colorado, Nevada, and California, translating complex healthcare policies, care coordination processes, and operational workflows into structured learning experiences that made complex healthcare concepts clear, practical, and actionable for learners.
- Collaborated with instructional design team to review and refine learning deliverables, ensuring instructional integrity, regulatory compliance, and quality standards.
- Reduced development timelines by approximately 30% by optimizing workflows and integrating AI-supported production tools.
- Leveraged structured instructional design methodologies (ADDIE) alongside iterative development models to guide analysis, rapid prototyping, implementation, and continuous improvement of enterprise learning initiatives.

Amynta Group — Instructional Designer & Learning Facilitator
March 2020 – April 2022

- Designed enterprise-wide digital learning solutions supporting automotive and commercial warranty operations, leveraging modern authoring, video, and multimedia tools to translate complex product and compliance requirements into scalable learning experiences.
- Administered enterprise learning and knowledge management systems, overseeing LMS operations and SharePoint-based learning repositories to improve content accessibility, searchability, and compliance tracking.
- Functioned as both instructional designer and virtual trainer, delivering onboarding and ongoing workforce development programs across multiple business units.

Sirius XM Satellite Radio — Departmental Operations Manager
July 2003 – January 2020

- Directed quality assurance and performance optimization strategy for 25-member service team in high-volume call center environment, improving SLA compliance and customer retention through data-driven coaching.

EDUCATION

Associate of Science in Business Administration
Independence University – Salt Lake City, UT

Bachelor of Science in User Experience Design
Western Governors University (WGU) – Online
In Progress
