Jeremy Thorpe

INSTRUCTIONAL DESIGNER | LEARNING STRATEGIST

719-357-1289
jeremydonthorpe@icloud.com
Colorado Springs, CO
Portfolio: Jeremy Thorpe

Strategic learning and instructional design professional, experienced in designing performance-driven learning solutions that improve employee capability and operational outcomes. Develops eLearning, virtual instructor-led training, and blended learning programs that translate complex business processes into clear, engaging learning experiences.

Collaborative learning partner, working closely with subject matter experts, operational leaders, and cross-functional teams to design enterprise-wide training programs aligned with workforce readiness, regulatory compliance, and business performance goals.

Instructional design professional, skilled in authoring tools, LMS platforms, and multimedia technologies used to create engaging digital learning experiences. Designs efficient development processes, integrates emerging technologies, and delivers learning solutions that drive measurable performance outcomes.

PROFESSIONAL EXPERIENCE

MAGELLAN HEALTHCARE (Remote) **April 2022 – January 2026**

Instructional Designer

Designed and developed enterprise learning solutions supporting behavioral health, Medicaid, and Medicare programs across multiple states, translating complex healthcare policies, care coordination workflows, and operational processes into standardized workforce training programs.

- Partnered with subject matter experts, clinical teams, and operational leaders to design structured learning solutions aligned to regulated behavioral health programs.
- Developed clearly defined learning paths and curriculum frameworks to support workforce readiness across multiple behavioral health programs.
- Leveraged instructional design methodologies (ADDIE) and iterative development approaches to guide rapid prototyping, implementation, and continuous improvement of enterprise training programs aligned with workforce performance and compliance requirements.

AMYNTA GROUP (Remote) **March 2020 – April 2022**

Instructional Designer

Designed and delivered digital learning programs supporting automotive and commercial warranty operations while administering enterprise learning systems and developing organization wide training solutions for workforce onboarding and performance development.

- Developed eLearning and multimedia learning solutions translating complex product, compliance, and operational processes into instructionally sound training experiences.
- Administered enterprise LMS and SharePoint-based knowledge systems, improving training accessibility, documentation management, and compliance tracking.
- Delivered virtual instructor-led training and onboarding programs while collaborating with SMEs to support workforce capability development.

SIRIUS XM SATELLITE RADIO **July 2003 – January 2020**

Departmental Operations Manager

Managed quality assurance and operational performance for a 25-member customer service team in a high-volume call center environment, focusing on performance coaching, service quality improvement, and operational efficiency.

- Implemented structured coaching programs that strengthened team performance and improved operational consistency.
- Leveraged operational analytics and reporting to identify performance trends and guide service improvement initiatives.
